## Akamai Standard Support

### Pooled Technical Support Team

Designed to be customer-centric, our technical support process ensures you always have access to a knowledgeable consultant who can solve any problem. Leveraging state-of-the-art support technologies, our consultants address your support needs efficiently and quickly. Pre-sales and implementation consultants are engaged as needed to configure services that meet your business and technical requirements. For subsequent changes and additions to your Akamai services, you can engage resources by contacting your sales account executive.

### Self-Service Configuration Tools

With the most extensive set of self-service tools in the industry, Akamai empowers you to provision many of its service features. The result? You improve your time to market and proficiency in managing this powerful extension to your infrastructure.

### Pooled Account Management Team

At all times, you have access to an on-call team providing best-of-class support. The team is composed of a globally distributed staff with significant professional experience and advanced degrees. Designed to be customer-centric, our business support process ensures you get directed to the right point of contact who can solve any problem. Leveraging state-of-the-art support technologies, our consultants address your business needs efficiently and quickly.

### Akamai Control Center, Email, and Phone Support

You can request technical support assistance in three ways:

- Akamai Control Center: <https://control.akamai.com>
- Email: [ccare@akamai.com](mailto:ccare@akamai.com)
- Phone: +1 877.4.AKATEC or +1 617.444.4699

# Akamai Standard Support

## Akamai Standard Support

Support for critical P1 service issues must be requested by phone in order to ensure a timely response.

Response Times	Critical Impact (P1)	< 2 Hours
	Major Impact (P2)	< 4 Hours
	Low Impact (P3)	< 2 Business Days
Live Support Availability	Critical Impact (P1)	24/7
	Major Impact (P2)	Business Hours
	Low Impact (P3)	Business Hours

Business hours are, by geography, as follows, Monday through Friday, excluding local holidays:

- North America ET (GMT - 05:00) 9:00 AM to 9:00 PM
- Europe (CET) 9:00 AM to 6:00 PM
- Asia-India (GMT + 05:30) 9:00 AM to 6:00 PM
- Asia-Japan/Singapore (GMT + 9:00) 9:30 AM to 6:30 PM

## Technical Support Priority Definitions

- **P1 - Critical Impact:** Akamai system or major application is down or seriously impacted and there is no reasonable workaround currently available
- **P2 - Major Impact:** Akamai system or application is partially or moderately impacted, or a single incidence of failure is reported; there is no workaround or the workaround is cumbersome to implement
- **P3 - Low Impact:** Routine maintenance, configuration change requests, questions about your account or contract, help managing your services online, information requests, and general feedback

## Akamai Standard Support

### 15 Support Requests Per Year

You are granted up to 15 support requests per year. While the Akamai Intelligent Edge Platform is proven to be very reliable, you have access to technical support for any Akamai-related issues that impact the performance or availability of Akamai services.

### Online Troubleshooting/ Diagnostic Tools

The Akamai Control Center includes extensive troubleshooting guides and diagnostic tools.

### Online Management, Control, and Reporting

Through the Control Center, you can access a variety of service management tools. With these tools, you'll gain visibility into and control over what is now your extended infrastructure. You can confirm successful delivery of content, view

traffic patterns and geographic dispersions, and monitor/troubleshoot your origin infrastructure. A unique real-time alert capability informs you when defined thresholds have been crossed, indicating that performance and user experience have degraded.

### On-Demand Training Modules

By taking advantage of the training modules available through the Control Center, you can learn to utilize the reports and tools. Each module includes in-depth information and software simulations, including a basic overview of Akamai, technical how-to, troubleshooting, and administration.
